

**SECRET  
SECURITY INFORMATION**5.11  
**Assistant Director for Operations***W*  
**10 March 1952****Chief, FBIID****Progress Report for February 1952****ADMINISTRATION**

1. The establishment of an FBIID monitoring station on [redacted] Japan, was approved on 15 February 1952. After a memorandum had been sent to the Department of State signed by the DD/P on the subject, FBIID was informally advised by State that the new field bureau would be covered in the administrative agreement to be made with Japan. Equipment for the project is being assembled at several field stations and in Washington for shipment to [redacted]. Items of equipment not available within FBIID are being requisitioned from the Office of Communications or are being procured in Japan. 50X1
2. A low bid of \$16,500 was made by the Air Installations Officer, 20th Air Force, and was accepted for the construction on Okinawa of a dormitory for native personnel, storage facilities [redacted], and a club/shelter building. The sum of \$18,500 has been approved for this purpose. The difference of \$2,000 is a contingency fund which has been authorized to provide for design, administration and inspection of the project. 50X1
3. The project for the construction on Okinawa of eight typhoon-proof, three-bedroom single family houses was approved 7 February 1952. The Voice of America has agreed to incorporate this construction with its own housing construction on Okinawa under a contract with Grove, Shepherd, Wilson and Kruse, Inc.
4. Appraisers engaged at the West Coast Bureau, have made their appraisal of the [redacted] where FBIID desires to relocate the West Coast Bureau and will submit their report in the near future. 50X1
5. Letters have been sent to Mr. Latimer, Prince George's County Commissioner, and to Mr. Tufts, President of the Broadbeck Citizens Association, setting forth FBIID's position on the encroachment problem raised by the proposal of the D.C. Ramblers Motorcycle Club to construct a race course near the East Coast Bureau. FBIID has requested notification of public hearing and notice of permit, if issued.
6. The Operations Officer and Chief Engineer of FBIID departed on an inspection tour of all FBIID installations.
7. A personnel ceiling [redacted] was set for FBIID. Six T/O positions for the engineering staff and the new Holmido field station were requested. FBIID has been informally advised that these positions have been approved. Additional T/O and ceiling positions will be required before FBIID can undertake expanded content analysis of radio propaganda. 50X1

**COPY TO:**

8. FBID has requested the purchase of a Flexowriter. A two-week trial period has indicated that the use of this machine will lessen the processing time required for coverage change reports, program schedules, etc.

OPERATIONS

9. At the request of OIC the first compilation of political abstracts was made on 14 February and forwarded to that office in memorandum form. Due to the considerable demand for this compilation from IAC intelligence consumers, FBID has requested OIC to approve the issuance of the Political Abstracts as a regular FBID publication.

10. Unusual signal outages between London and Washington necessitated a request for an additional allotment of \$15,000 for payment of commercial cable charges during the remainder of the fiscal year. These funds were authorized by the Budget Division on 28 February 1952.

11. On 13 February, at the request of the DD(I), FBID commanded sending significant, selected material from the Daily Report to the DD(I), DD(P), AD/GI, AD/SI, AD/AR, in addition to the AD/O.

12. A memorandum on monitoring capabilities of FBID was forwarded to the Psychological Warfare Division of the Department of Army. This was done in furtherance of the coordination of FBID monitoring and Army Psychological Warfare monitoring.

SPECIAL REPORTS

13. The following special report was issued:

"Total Soviet Radio Output to Foreign Countries," 12 January, issued as a special supplement to the Survey of USSR Broadcasts.

14. The Operational Information and Personnel Reports for February are attached.

**II. Local Services Rendered by the Field:**

London Bureau

Daily summaries of USSR, Satellite and German broadcasts are delivered to local users in London and sent by teletype to consumers in Western Europe; i.e., American Embassy offices in London and Paris and The Hague; G-2, USA, Frankfurt; HICOG, Frankfurt; U.S. Delegation, Austrian Mission; North Atlantic Treaty Organization; SHAPE, etc.

All available transcripts and summaries of broadcasts of the Radio of Free Russia monitored by the BBC are transmitted to the U.S. Embassy in London.

Tokyo Bureau

All processed intercepts are sent to G-2, USA, FEC and the Intelligence Section, FEAF. A copy of the Korean file is transmitted to U.S. Embassy, Pusan, and G-2, Eighth Army, via radioteletype. Selected material of Chinese International Service programs is filed to USIS, Fornoch.

Okinawa Bureau

All processed intercepts are filed to G-2, USA, FEC and the Intelligence Section, FEAP. A copy of Peking intercepts is filed to USIS, Fornoch. A copy of the Korean file is transmitted to U.S. Embassy, Pusan. The weekly analysis of Chinese Communist regional broadcasts is regularly furnished G-2, FEC. A daily file of selected material is furnished G-2, RICOM.

Saigon Bureau

A copy of all processed material is filed to Tokyo for G-2, FEC. A copy of all processed intercepts is furnished MSA Information Service at Saigon.

West Coast Bureau

Copies of Peking intercepts and Vietnam News Agency intercepts are filed to G-2, USA, FEC. G-2, FEC, also receives daily a copy of all Russian-language material and a copy of all material in English and French which is sent by the Saigon office of AFP to their consumers in Southeast Asia.

East Coast Bureau

Daily distribution of an epidemiological bulletin of the World Health Organization is made to the Office of Scientific Intelligence.

German Bureau

Copies of all processed material are sent to the Economic Branch and to the Radio and Press Branch, Office of Intelligence, HICOG.
